The Straight Line FOUNDATION

INNOVATIVE SOLUTIONS FOR ADDICTION RECOVERY
Office: (432) 815-9348 Direct Line: (432) 813-9983

My name is Elle Quintero, I have been sober for over 21 months today.
I used methamphetamines for almost 10 years, and I did the same thing over and over expecting that one day things would change for me. That is the insanity of addiction. I hoped and prayed that I would wake up one day and not want to use.
I was in and out of jails, over the past 10 years. The only amount of clean time I could obtain was in jail, and the minute I left, I would immediately go back to using.

I was given the gift of desperation on 09/07/2021 when I was given the opportunity to attend rehab in Midland for 45 days at Springboard and I took full advantage of it.
After getting into rehab in Midland, I soon heard many conversations about people going to Sober Living.
I learned of The Straight line Foundation and that they were local, and they had an opening at Mabel's House.
Having this amazing opportunity at a women's sober living home was incredible. I began to learn how to live life again, there were so many things that I had forgotten & was unfamiliar with.
I was given the beautiful gift of a second chance at life. I'm so grateful for Kevin Tyson, Simon Cross, and Tim Sullivan for the chance to start my life over and to live in a safe place with other women having the same goals and aspirations. I'm glad for the mandatory meetings in the house that encouraged me to keep working towards sobriety.
Today I work at a Surgeon's office in Midland and have been employed for 1 ½ years. I am currently buying a car; I know that I could never have done this without the help of Straight line Foundation.
Most of all I'm eternally grateful for the relationships they have helped me restore. Today I am a loving mother, daughter, sister, and most importantly a grandmother.
I will always be thankful for the Straight line Foundation for saving my life and taking me off the streets.
I will forever be grateful for this second chance in life.

Sincerely, Elle Quintero
